FULL METAL PROJECT PURCHASER (M/F/D)

**INTERESTED?
APPLY NOW!**

DELORO WEAR SOLUTIONS, THE **FULL METAL ANTI-AGING EXPERT**, IS LOOKING FOR A DEDICATED, ENTHUSIASTIC AND TALENTED PROJECT PURCHASER, TO **BE AN ASSET TO OUR DYNAMIC TEAM**.

WHO DO WE NEED ON BOARD?

We are looking for a committed and talented project purchaser for the wide world of our purchasing department: As a pivotal member of the team, you will be responsible for the planning, controlling and budgeting of a purchasing volume of approx. six million euros.

Your mission: To manage purchasing projects globally, create synergies and expand the supplier network in the field of mechanical processing. In doing so, you will ensure a sustainable supply chain and work on pioneering business and technical projects.

Your negotiation skills with strategic suppliers lead to successful contract conclusions and identify cost reduction potential.

DO YOU SEE YOURSELF HERE?

Do you combine technical know-how with business acumen? Our team then needs exactly you. The ideal candidate will have a technical or business degree, e.g. in engineering or business administration.

Your experience in the international purchasing of cast components and forgings is the icing on the cake! With your ability to manage project-related and cross-departmental teams, you build bridges and solve any challenge. Your above-average technical understanding and experience in a global metalworking company are worth their weight in gold.

Persuasiveness, assertiveness and business fluency in English round off your profile. Another language? Bonus points! Occasional business trips are a welcome change for you.

WHAT ARE WE OFFERING YOU?

We focus on freedom, trust and responsibility for your tasks. You can create your working conditions individually, because we value every individual in our team. Further training is very important to us, because we want you always to have an up-to-date knowledge and expand your skills. We support all initiatives relating to innovation and are actively involved in artificial intelligence.

We offer a sound company pension scheme. We have many other advantages to make the working atmosphere at our company particularly pleasant. Parking spaces and catering are also provided on site. We also celebrate successes together.
